WINTER PRUF®

Burst protection for over 50 years.

Winter-Pruf® antifreeze is the ideal solution for winterizing any potable water system.

Winter-Pruf® brand antifreeze is made from materials that are generally recognized as safe (GRAS), providing burst protection down to -50°F when directions are followed according to the label.

In addition to its many applications, this product is safe for use in drinking water systems during winter storage for preventing frozen lines. It is available in ready-to-use, -50° concentrate, and -100° formulations.

Features:

- Lubricates seals and gaskets
- Safe for marine engine blocks
- Will not harm plastic, copper, brass, or steel plumbing
- Non-toxic formula

Packaging:

- 1 gallon containers
- 5 gallon containers
- 55 gallon drums
- 275 gallon tote tanks
